

Midwest Bat Hub Site Data Form

This form is used to collect information about the bat detector and its surrounding habitat. These data are used to better inform the results from the monitoring effort. Please keep a datasheet for each site you maintain. Be sure to enter the deployment dates (survey start date/survey end date) each month. Please send us a picture of your detector in its surrounding habitat! Upload it as you would your data.

Name

Site Name

Sample Cell ID (GRTS ID, 1–6-digit number)

Latitude **N** **Longitude** **W**

Enter your coordinates in decimal degrees

Detector ID

Detector Type (Circle or highlight one option)

AudioMoth	Anabat Chorus	Anabat Express
Anabat SD2	WA SM4	WA SM mini

Microphone Height
(Please enter your value in feet or meters)

<input style="width: 100%; height: 60px;" type="text"/>	ft	or	<input style="width: 100%; height: 60px;" type="text"/>	m
---	----	----	---	---

Microphone Orientation
(Circle one option)

nw	n	ne
w		e
sw	s	se

Habitat type (circle or highlight one option)

agriculture	barren land	forest-conifer
forest-deciduous	forested wetland	
grassland	shrubland	urban
water	wetland	

Survey Deployment Dates

For each detector site, we need to know the date that you deployed and retrieved your detector each month

April	Survey Start Date	Survey End Date
May	Survey Start Date	Survey End Date
June	Survey Start Date	Survey End Date
July	Survey Start Date	Survey End Date
August	Survey Start Date	Survey End Date
September	Survey Start Date	Survey End Date
October	Survey Start Date	Survey End Date

Type your response, or print this sheet and write in your response

Preferred typing format: YYYY-MM-DD
